Seeing beyond

ZEISS

READY FOR INTENSE OBSERVATIONS. THANKS TO THE SMARTFOCUS CONCEPT. VICTORY SF AND SFL.

Both the Victory SF and SFL models feature outstanding optics, an impressive field of view, and, of course, the SmartFocus Concept. The high-performance binoculars are extremely versatile and stand out for their comfortable handling and perfect ergonomics, among other features.

In the new SFL binoculars, ZEISS has succeeded in packing these high-performance elements into an even lighter and more compact form. To achieve this, ZEISS has reduced the lens diameter by 2 mm, used thinner lens elements, and also placed them even closer together. Lighter and more compact than any ZEISS binoculars on the market, the SFL models are a perfect addition to the Victory SF family.

FASCINATING AND RARE. THE BLACK GROUSE IN FOCUS.

At dawn in April and May, groups of male black grouse like to gather in meadows and bogs to perform their courtship display. Then, as the sun rises, they disappear into the treetops. Their distinctive calls can be heard from very far away.

But black grouse populations are steadily declining, particularly in Germany. As part of our SFL campaign, we would like to draw attention to this fascinating species and bring it back into the spotlight. See our blog for further details.
